MEMORANDUM FOR: Commander, Air Force Intelligence Center
Headquarters, United States Air Force

SUBJECT: Request for Release of ACIC Charts to the
Central Intelligence Agency [REDACTED]

25X1A6a

[REDACTED] 25X1A6a

1. It is requested that AFCIN grant authority to the Supervisor of the Posting Department, ACIC, St. Louis, to provide copies of ACIC charts directly to personnel of the Central Intelligence Agency [REDACTED]. A limited number of WAC, Pilotage, Approach and ONC charts, and target mosaics are required from time to time for use in briefing and debriefing intelligence sources. The Air Force is often a beneficiary of the exploitation of these sources through the resulting intelligence reports.

2. The requested arrangement would eliminate the necessity for CIA personnel [REDACTED] to order material from Washington that is already available locally, and would result in a saving, both in time and in costs of handling.

25X1A9a

3. This request is a result of conversations between Mr. Elmer Shoultz, ACIC, St. Louis and [REDACTED] ACIC has already approved the arrangement in principle, but has stated that it requires AFCIN concurrence.

4. This Office would appreciate knowing of your action on this matter so that [REDACTED] may be informed of the outcome.
